

Natera Expands Lab Footprint With State-Of-The-Art Facility in Austin, Texas

June 22, 2020

Grows capacity to process up to three million tests annually

SAN CARLOS, Calif., June 22, 2020 /PRNewswire/ -- [Natera, Inc.](#) (NASDAQ: NTRA), a pioneer and global leader in cell-free DNA testing, is pleased to announce the expansion of its laboratory facility in Austin, Texas, supporting greater test processing capacity.

This newly expanded, 70,000 square foot facility provides significant additional lab capacity and adds cutting-edge, automated lab equipment and capabilities. In addition, the facility will allow for lower COGS, increase access to an expanded labor pool, and extend Natera's operational continuity plans.

"We are at the early stages of growth in three very large markets that represent a greater than \$25 billion dollar opportunity. This expansion will enable us to penetrate these markets in a streamlined, cost-effective manner," said Steve Chapman, Natera's Chief Executive Officer.

Natera processes thousands of medical tests each business day, with over three million total tests processed to date across its women's health, oncology, and organ health businesses. The expansion of Natera's laboratory facilities positions the company to support a growing number of patients who may benefit from its tests.

About Natera

[Natera](#) is a pioneer and global leader in cell-free DNA testing. The mission of the company is to change the management of disease worldwide with a focus on reproductive health, oncology, and organ transplantation. Natera operates ISO 13485-certified and CAP-accredited labs certified under the Clinical Laboratory Improvement Amendments (CLIA) in San Carlos, California, and Austin, Texas. It offers proprietary genetic testing services to inform obstetricians, transplant physicians, oncologists, and cancer researchers, including biopharmaceutical companies, and genetic laboratories through its cloud-based software platform.
